

## **Dynacom WQP-640KZ UAV Professional Modules**

 Designed for UAV, PTZ augmentation function (pitch/roll axis) efficiently eliminates video jitters.

| Model No.                          | WQP-640KZ   |
|------------------------------------|---|
| IMAGING PERFORMANCE                |   |
| Imaging Performance                | 0.03°C at 30°C  |
| Image frequency                    | 50/60HZ   |
| Focus                              | Electric focus-Auto focus   |
| Detector type                      | Focal Plane Array (FPA), uncooled microbolometer 640×480 pixels   |
| Spectral range                     | 8~14µm  |
| Field of view                      | 10°×8° (60mm) / 40°×30° (15mm)  |
| Spatial resolution ( IFOV )        | 0.272mrad/1.08mrad  |
| Electronic zoom function           | 1X~4X   |
| Temperature range                  | -20°C~+ 150°C   |
| Accuracy                           | ±2°C or ±2% of reading  |
| Max temperature automatic tracking | Automatically capturing max temperature and showing specific data in display in-real time   |
| GPS Position                       | GPS information and IR image data can be played in the software of base-<br>station. IR image data could be retrieved by corresponding GPS information. |
| Palette                            | White hot / Black hot / iron  |
| Operating temperature range        | -10°C~50°C  |
| Storage temperature range          | -40°C~70°C  |
| Humidity                           | Operating and storage 10% to 95%, non-condensing  |
| Encapsulation                      | P54   |
| Servo Control Pan-tilt             |   |
| Stability augmenter                | Angle of pitch:±40°, Angle of horizontal:±20°   |
| Stability accuracy                 | 0.5°  |
| Max rotation velocity              | 5°/second   |
| Power supply                       | 12V 1A  |
| Image transmission module          |   |
| Airborne transmitter               |   |
| Ground-based receiver              |   |
| operating frequency                | 5.8GHz  |
| Channel                            | 8 channel   |
| Ground-based controller            |   |
| Input voltage                      | 4.8~7.4V  |
| Base-station                       |   |
| Display Size                       | 7" TFT LED display  |
| Native Resolution                  | 800×480   |
| Brightness                         | 400-450cd/m² (maximum brightness)   |
| Contrast Ratio                     | 500:1   |
| Viewing angle                      | 140°/110° (Horizontal / Vertical)   |
| Weight                             | 450g  |
| INTERFACE / FORMAT SPECIFICATION   |   |
| Control interface                  | PMW   |
| Storage                            | 16bits full radiometric IR images and video will be stored into SD card   |
| Whole system Weight                | 1396g (Including gimbal)  |
